

# Barbara A. Konkle, MD

*“It’s exciting to take our research findings and translate them into clinical care.”*

## Genomics in Hemophilia

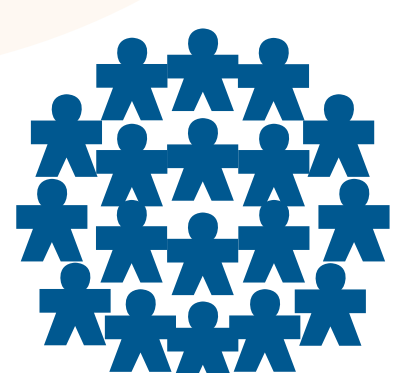

Dr. Konkle leads a nationwide project, My Life Our Future (MLOF) to provide genotypes and develop a Research Repository to advance care of patients and others in the future.

MLOF is governed by a partnership between Bloodworks Northwest, the American Thrombosis and Hemostasis Network, the National Hemophilia Foundation and Biogen.
